Hatha Yoga

'Hatha' will typically involve a set of physical postures (yoga poses) and breathing techniques. These are typically practised more slowly and with more static posture holds than a Vinyasa flow or Ashtanga class. So Hatha yoga can be considered as anything you might do with the body, including: asana – yoga postures, pranayama – breathing techniques, mantra – chanting or reciting, mudra – hand gestures, shatkriyas and shatkarmas – cleansing techniques.

Vinyasa Flow Yoga

Vinyasa Flow is a popular and evolving form of traditional hatha yoga. It focuses on integrating intention, breath, movement, awareness, alignment, strength, and flexibility - essentially your practice with your daily life. In this class, we will explore luscious hip openers, deep twists, gravity surfing strengthening, and bum toning. We will also surface the breath and try to quiet the mind. This class is open for all levels of Yoga, modifications are offered to suit your levels to enjoy a fun and inspiring class!

Power Yoga

Power Yoga is considered to be a 'contemporary' style of movement, but is still based on the traditional styles of yoga. A good way to describe it is a vigorous and fitness based form of yoga. You are guaranteed to move around and sweat, but you will also be focusing on your breath and your mind while moving your body.

Yoga Reset

Yoga Reset is a class at a deliberate pace to reset your mind and body. We'll explore a variety of tools to stretch, strengthen, and twist, including breath and core work, vinyasa (flow), balance work, and mindfulness strategies. You will be holding poses a bit longer to build flexibility and strength, while occasionally pausing to work on the specifics of the architecture of each pose. Alignment cues throughout the practice will help you move mindfully and gain a greater understanding of your yoga practice.

Pilates & Pilates Burn

Pilates is the perfect blend of deep muscle toning, stretching, and balancing. Develop core strength, flexibility, balance, and stamina. It is a structured, easy-to-follow total body workout, ensuring you get a challenging workout every time! And best of all fitness levels are welcome.
